

MCIEA Cohort 2 QPA Fall Institute

November 2, 2017

Goals

- Learn the Assessment Validation Protocol and Task Tuning Protocol for analyzing the technical quality of a performance assessment
- Explore a range of strategies to support the collaborative design of performance assessments.

Norms for Collaboration

- Honor our learning and be respectful of the work of the teacher and student.
- Keep the conversation constructive; avoid judgmental language.
- Trust the process: participate open and actively.
- Foster equity of voice and shared airtime.
- Don't skip the debrief process.

Agenda
