

MCIEA Cohort 1 Fall Convening

October 17, 2017

Goals

- Review and revise performance assessment design ideas through collaborative protocols
- Explore new processes for the collaborative design of performance assessments
- Advanced task design focused on tight alignment to MA standards and 21st century skills
- Deepen understanding of connection between equity and technical quality in performance assessment

Norms for Collaboration

- Honor our learning and be respectful of the work of the teacher and student.
- Keep the conversation constructive; avoid judgmental language.
- Trust the process: participate open and actively.
- Foster equity of voice and shared airtime.
- Don't skip the debrief process.
